

The **AbiBow^{EQUAL OFFSET}** grades are ideal for all your printing requirements such as book publishing, direct mail, financial printing, inserts, instruction manuals or any other commercial print job that traditionally uses uncoated offset.

AbiBow^{EQUAL OFFSET} AbiBow^{EQUAL BOOK}

AbiBow^{EQUAL OFFSET} is an 83-bright, blue-white, surface-enhanced mechanical sheet designed to match the properties of the original uncoated offset. It offers equal or superior print surface, performance on press, opacity, caliper, environmental benefits and value than standard offset. **AbiBow^{EQUAL OFFSET}** uses up to 50% less wood fiber than standard offset and is brightened through a process that is totally chlorine free (TCF). Whether for instruction manuals, magazines, catalogs, inserts, tradebooks, educational workbooks, direct mail or forms, **AbiBow^{EQUAL OFFSET}** delivers high performance economically.

BASIS WT LBS	BASIS WT.	CIE'	ISO	OPACITY	CALIPER	PPI
